

GIHEKE TSS
END TERM I EXAM,
SECTOR: ICT & MULTIMEDIA,
TRADE: L5 CSA
ACADEMIC YEAR: 2024/2025
MODULE TITLE: Cloud Computing
MAX: 100 Marks
DATE: 12/12/2024
DURATION: 9h00-12h00

INSTRUCTIONS TO CANDIDATES:

This Exam paper is composed of **Three** ,Sections (A, B,C).
 Follow the instructions given below, and answer the indicated

Section A:

Section B:

Section C:

SECTION A: Attempt All questions(55marks)

01	What is cloud computing	3marks
02	Discuss about cloud computing service models	6marks
03	Write in the full word Aws GCP SLA IAM VM 2FA MFA SSH	4marks
04	Differentiate types of account created in cloud computing?	2marks
05	Differentiate types of SLA?	3marks
06	Which service model provides virtualized computing resources over the internet? A) Software as a Service (SaaS) B) Infrastructure as a Service (IaaS) C) Platform as a Service (PaaS) D) All of the above	3marks
07	What is the primary benefit of using cloud storage? A) Increased physical storage space B) Accessibility from anywhere with internet C) Higher costs for data retrieval	3

	D) Data is stored in a single location	
08	List any four benefits of SLA?	4
09	Draw SLA life circle?	3
10	Which of the following is a common feature of cloud monitoring tools? A) Automated backup creation B) Real-time performance metrics C) Offline data storage D) Static IP allocation	2
11	What is cloud resources deprovisioning?	3
12	What do you understand about cloud monitoring tools	3
13	Differentiate horizontal and vertical scaling	4
14	Identify four(4) cloud monitoring tools	4
15	Talk about cloud resource provisioning?	2
16	Discuss about cloud resources?	3
17	What does the term 'elasticity' in cloud computing refer to? A) The ability to increase or decrease resources as needed B) The physical flexibility of hardware C) The ability to stretch data across multiple servers D) None of the above	3

Section B: Attempt any three (3) questions (30 marks)

18	What are some consideration a company consider while choosing cloud service provider	(10 marks)
19	Discuss about Cloud Environment Security Measures	(10 marks)
20	What are the potential security risks associated with cloud computing and how can organization mitigate them	(10 marks)
21	Differentiate types of patches in cloud computing?	(10 marks)
22	Differentiate types of cloud errors	(10 marks)

Section C: Attempt only one (1) question (15 marks)

23	List all steps to create account on cloud computing	(15marks)
24	List and differentiate backup strategies?	(15marks)

END OF ASSESSMENT
