

GIHEKE TECHNICAL SECONDARY SCHOOL

GIHEKE TSS
END OF TERM I EXAMINATIONS
SECTOR: ICT & MULTIMEDIA,
TRADE: L3 CSA
ACADEMIC YEAR: 2024/2025
MODULE TITLE: COMPUTER SYSTEM REFURBISHMENT
MAX: 100 Marks
DATE: 12/12/2024.....
DURATION: 9h00-12h00

INSTRUCTIONS TO CANDIDATES:

This Exam paper is composed of Three ,Sections (A, B,C).
Follow the instructions given below, and answer the indicated

Section A:

Section B:

Section C:

SECTION A: Attempt All questions(55marks)

01	Define computer system motherboard	2marks
02	Give any four (4) types of PPE	4marks
03	Define hazard	2marks
04	Provide four(4) types of hazard	4marks
05	Define ESD Give any three(3) examples of ESD Tools	5marks
06	Which keyboard shortcut and command that allow quick access to system information in windows without navigating through menus?	3marks
07	Which components from the list below provides temporary data storage? i. Motherboard ii. SSD(solid state drive) iii. RAM(Random Access Memory) iv. C and B ?	3 marks
08	Explain any three (3) computer system hardware components	3 marks
09	Which one from the list below is the first step in performing computer system renovation? a. Installing new software b. Cleaning the exterior of the computer c. Backing up important data d. Upgrading hardware components	2 marks
10	Differentiate between hard disk drive (HDD) and solid-state drive	2 marks
11	What precaution should be taken before disassembling a computer system for renovation? A. Wear gloves to prevent static discharge B. Disconnect all power sources C. Start the renovation immediately after turning off the computer D. Avoid backing up data	2 marks

12	Distinguish between hardware testing and software testing ?	4 marks
13	You are requested to refurbish a desktop computer. Why are you advised to power it off and disconnect all cables before doing anything?	4 marks
14	Classify the following into input and output devices? I. Keyboard II. Touchpad III. Mouse IV. Light pen V. Monitor VI. Microphone VII. Speaker VIII. Plotter IX. Scanner X. Printer	5 marks
15	Why do we need thermal paste while performing computer renovation?	3 marks
16	What is the function of the following diagnostic tools a. Digital multimeter b. Loop back	3 marks
17	Give at least two(2) example of hardware and software diagnostic tools	4 marks

Section B: Attempt any three (3) questions (30 marks)

18	Differentiate computer assembling and disassembling and illustrate all steps to perform those activities?	(10 marks)
19	Provide five components of computer system and explain them?	(10 marks)
20	List and differentiate categories of computer system and specifying where are used in real-life?	(10 marks)
21	Provide all steps to format a computer?	(10 marks)
22	Differentiate computer form factors	(10 marks)

Section C: Attempt only one (1) question (15 marks)

23	By using table compare types of computer software by considering the following parameters?	(15marks)																								
	<table> <tr> <th>feature</th><th>System software</th><th>Application Software</th></tr> <tr> <td>definition</td><td></td><td></td></tr> <tr> <td>examples</td><td></td><td></td></tr> <tr> <td>purpose</td><td></td><td></td></tr> <tr> <td>Interact with hardware</td><td></td><td></td></tr> <tr> <td>User interaction</td><td></td><td></td></tr> <tr> <td>Installation</td><td></td><td></td></tr> <tr> <td>Examples of functions</td><td></td><td></td></tr> </table>	feature	System software	Application Software	definition			examples			purpose			Interact with hardware			User interaction			Installation			Examples of functions			
feature	System software	Application Software																								
definition																										
examples																										
purpose																										
Interact with hardware																										
User interaction																										
Installation																										
Examples of functions																										
24	List types of computer system and explain them	(15marks)
