

GIHEKE TSS
END OF TERM I EXAMINATIONS
SECTOR: Energy,
TRADE: L5 ELT
ACADEMIC YEAR: 2024/2025
MODULE TITLE: BASIC OF NETWORKING
MAX: 100 Marks
DATE: 10/12/2024
DURATION: 9h00-12h00

INSTRUCTIONS TO CANDIDATES:

This Exam paper is composed of Three ,Sections (A, B,C).
Follow the instructions given below, and answer the indicated
Trace line after responding each question

Section A:

Section B:

Section C:

SECTION A: Attempt All questions(55marks)

01	Define network?	2marks
02	List 10 applications of network	5marks
03	Provide 4 benefit of computer network	2marks
04	List two advantages and disadvantages of computer network?	4marks
05	List network technologies?	4marks
06	What is network topology?	2marks
07	Differentiate Ip address Types	4 marks
08	Write in full word: a. TCP b. UDP c. DNS d. FTP	4marks
09	Discuss about subnet mask ?	2marks
10	Define Ip address?	1marks
11	Provide four(4)examples of tools used in network implementation?	4marks
12	classify the following network devices into their categories? a) Router b) Switch	4marks

	c) Access point d) Smart phones e) VoIP phone f) printer g) Network interface card h) CCTV Camera	
13	Differentiate types network transmission medium ?	4marks
14	Differentiate classification of network based on components roles?	4marks
15	What is importance of WPA3 in network?	3marks
16	Why we need firewall in network?	3marks
17	List network classification based on geographical area?	3marks

Section B: Attempt any three (3) questions (30 marks)

18	Complete the following table				(10 marks)
	Ip address classes	Default subnet mask	Number of network	Number of host	
	Class A:1-126				
	Class B:128-191				
	Class C:192-223				
19	Differentiate IDS and IPS as devices used in network				(10 marks)
20	List three(3) material, three(3)components three(3) tools used in implementation of network				(10 marks)
21	What is the number of hosts in this subnet mask range 1. /26 2. /27 3. /28 4. /29 5. /30				(10 marks)
22	Differentiate clearly aerial and underground network cable installation types?				(10 marks)

Section C: Attempt only one (1) question (15 marks)

23	As network admin need four (4) sub network from 192.168.4.0 . design the topology and provide the Ip address structures for all the sub network specify first usable Ip address , last usable Ip address and broadcast Ip address for all subnetwork. finally specify block size?	(15marks)
24	What are the elements available in network maintenance reports	(15marks)
