

GIHEKE TSS
END TERM I TEST, QUESTION PAPER
ACADEMIC YEAR: 2024/2025
SECTOR: ICT & MULTIMEDIA,
TRADE: 5 SOD
MODULE TITLE: MOBILE APPLICATION WITH FLUTTER
MAX: 100Marks
DATE:12/12/2024
Period:9:00AM-12:00AM
DURATION: 3 HOURS

INSTRUCTIONS TO CANDIDATES:

This Exam paper is composed of Three ,Sections (A, B and C).
Follow the instructions given below, and answer the indicated questions
Only blue and black pen allowed
Trace line after responding each question

Section A:

Section B:

Section C:

SECTION A: Attempt All questions (55marks)

01	What is flutter?	(3marks)
02	Describe four(4) dart framework?	(4marks)
03	Differentiate command line interface and graphical user interface as used in dart execution process?	(3marks)
04	Why developer prefer to use dart languages in mobile application development?	(3marks)
05	Provide and explain four(4) features of flutter?	(4marks)
06	What is widget?	(3marks)
07	Differentiate widget types	(4marks)
08	Debug the following source codes? <pre>import 'dart:io'; void main() { print('Enter a number (1-7) to get the corresponding day of the week:'); // Read user input String? input = stdin.readLineSync(); // Convert input to an integer</pre>	(3marks)

```
int dayNumber = parse(input ?? '0');

// Use switch-case to determine the day
String day;
switch (Number) {
  case 1:
    day = 'Monday';
    break;
  case 2:
    day = 'Tuesday';
    break;
  case 3:
    day = 'Wednesday';
    break;
  case 4:
    day = 'Thursday';
    break;
  case 5:
    day = 'Friday';
    break;
  case 6:
    day = 'Saturday';
    break;
  case 7:
    day = 'Sunday';
    break;
  default:
    day = 'Invalid input. Please enter a number between 1 and 7.';
}
```

	<pre> } // Display the result print(day); } </pre>	
09	List four(4) characteristics of Variables	(4mark)
10	Provide two applications of flutter	(2mark)
11	Write a dart program that allow user to enter three(3) positive number and display the sum?	(3mark)
12	What will be output of the following dart source code? <pre> abstract class Animal { void makeSound(); // Abstract method void eat() { print("Eating..."); } } class Dog extends Animal { @override void makeSound() { print("Bark"); } } class Cat extends Animal { @override void makeSound() { </pre>	2marks

	<pre> print("Meow"); } } void main() { Animal myDog = Dog(); Animal myCat = Cat(); myDog.makeSound(); // Output: Bark myCat.makeSound(); // Output: Meow myDog.eat(); // Output: Eating... } </pre>	
13	What is class in dart programming language?	2marks
14	What is difference between class and object?	4marks
15	Differentiate native application and cross platform application	4marks
16	Discuss about purpose of flutter?	3marks
17	List any four(4) features of dart language?	4mark

Section B: Attempt any three (3) questions (30 marks)

18	Write a dart program that allow user to input number and then system calculate the sum of odd numbers between entered number and 200?	(10 marks)
19	Write a source code of dart program that allow user to enter non-negative number then system display factorial of that number to the user	(10 marks)
20	Discuss about types of output and input widget	(10 marks)
21	Write a dart function that add two integer number and display their sum?	(10 marks)

Section B: Attempt any one (1) question (15 marks)

22	Differentiate elements of OOP	(15 marks)
23	Differentiate widget life circle?	(15 marks)

END OF ASSESSMENT
